SUMMARY

To attain valuable knowledge and professional skills to complement statistics in an actual job environment and keen to contribute to a cause. I am young, energetic, and geekly individual who desire to learn.

WORK EXPERIENCE

AIML Virtual Internship - APSCHE-EduSkills   September - November 2023

In this Virtual internship,I've tackled various ML challenges on Amazon SageMaker, mastering skills to solve real-time problems effectively and deliver practical solutions using advanced machine learning techniques and methodologies.

Data Analytics Virtual Internship - AICTE   May - July 2023

In this virtual internship, I've gained proficiency in analyzing and visualizing data, allowing me to extract meaningful insights from real-time datasets. Through practical exercises, I've developed the ability to interpret data effectively, empowering me to make informed decisions based on the insights derived

PROJECTS

EDA on Amazon Sales dataset using Python   Source Code

I meticulously cleaned data for accuracy. Analyzing Amazon sales data, I extracted actionable insights, aiding data-driven decisions and presenting compelling visualizations.Using Python,Numpy,Pandas,Matplotlib,Seaborn

Hostel Management website   Source Code

I developed a College Hostel Management System with features like room bookings, complaint management, and student information access for efficient hostel administration for my college.Using HTML, CSS, JS, ExpressJS, Google firebase

EDUCATION

2021 - 2025 - present	BTech(AI&DS) at **Vishnu Institute of Technology**	(CGPA: 8.9/10)
2019 - 2021	Intermediate at **Narayana Junior College**	(MARKS : 950/1000)

CERTIFICAIONS

IBM certified in the course of **Python for Data Science, AI & Development**.
IBM certified in the course of **Relational Databases (RDBMS)**.
NPTEL certified in the course of **Cloud Computing**.

SKILLS

Programming Languages :	Python, Java, Data Structures
Data Analysis & Statistics :	Numpy, Pandas , Statistics
Data Visualization :	Matplotlib, Seaborn,Tableau, Excel
Machine Learning :	Supervised Learning, Unsupervised Learning, Feature Engineering
Web Development	HTML, CSS, JavaScript, NodeJS, ExpressJS
Databases :	SQL, Mongodb, Cassandra
